## web design and hosting services

- specialising in small business and family internet sites we can provide a total solution to get your company on-line
- the design of your site is completely tailored to suit your company image so you will end up with a unique on line identity with brand consistency throughout your site and business stationery
- we can register your domain - set up your e-mail accounts - configure your mail client (Outlook or Outlook Express)
- our hosting service provides you with fast reliable high traffic bandwidth
- you could be on line with a basic corporate web presence for as little as £390.00 including your .co.uk domain registration - multiple e-mail accounts - 12 months site hosting service fully configured and ready to go
- the first step is to arrange a consultation to ascertain your requirements so that we can give you an accurate quotation for your project.

to see examples of our work or get more information e-mail us or go to our web site

## graphic design and digital imagery

- strong, striking, interesting visual impact is the key to getting clients to investigate further into your web site
- we can design unique logos and graphics that exactly fit your profile - unlike some we don't use clip art etc - everything is tailored to work for you and your corporate identity
- your own images can be reworked and optimised for web / CD Rom / DVD presentations
- we can arrange a professional photo shoot of your products / staff / premises etc for use within your project

## flash movies and multi media streams

- flash movies add stunning interactive moving graphics and audio to your web site
- media streaming from our powerful server will allow your clients to view short promotional movies etc
- we can compile and design flash movies and most types of multi media presentations
- on line photo galleries and slide shows

## digital office services

- your current business stationery - brochures- flyers etc can be converted to PDF files which can then be placed on our server for download and local printing by your customers thus providing you with a very fast cost effective way of distributing your media eliminating the expense of postage and printing costs - these can also be e-mailed to your clients
- professional 'Power Point' presentations created
- your web site - images - catalogues - ads etc can be converted and formatted for a CD or DVD presentation.

## it consultancy and support

- let us look at the way you work and create a training programme that will streamline your operation and provide you and your employees with new IT skills - confidence and increased productivity
- optimising the use of PCs and making them work for you not against you - tuition in basic office PC operation - basic e-mail use - advanced e-mail use as a marketing tool - safe use of the internet - internet as a business tool
- home user introduction to the internet and multi media computing for fun and study
- remote access to your system for quick solutions even if you are not at your PC
